

ACTA BIOLOGICA CRACOVIENSIS

SERIES BOTANICA

Vol. 55/1

2013

Polish Academy of Sciences – Cracow Branch
Jagiellonian University, Cracow

ACTA BIOLOGICA CRACOVIENSIA

Series Botanica

The Official Publication

of the Biological Commission of the Polish Academy of Sciences – Cracow Branch
and the Jagiellonian University, Cracow

DEVOTED TO PLANT ANATOMY, MORPHOLOGY, CYTOLOGY, GENETICS,
KARYOLOGY, EMBRYOLOGY, TISSUE CULTURE, PHYSIOLOGY,
BIOCHEMISTRY, BIOSYSTEMATICS, MOLECULAR PHYLOGENETICS
AND PHYLOGEOGRAPHY, PHYTOCHEMISTRY

ESTABLISHED 1958

© Polish Academy of Sciences and the Jagiellonian University, Cracow 2012

Polish Academy of Sciences and Jagiellonian University provided partial funding for the publication of this volume

ACTA BIOLOGICA CRACOVIENSIA Series Botanica is published twice a year
by the Polish Academy of Sciences – Cracow Branch, św. Jana 28, 31-018 Cracow, Poland
and the Jagiellonian University, Gołębia 24, 31-007 Cracow, Poland

Publisher: Versita: <http://versita.com/abcsb>

Set and printed by KON  Tekst Publishing House, Bobrzeckiej 9, 31-216 Cracow, Poland

Managing editor: Monika Tuleja

Technical editor: Wojciech Marcinek

Line editor: Michael Jacobs

Series Botanica

CONTENTS

Volume 55/1, 2013

Original papers

- JASNA PUZINA AND IVICA ŠAMANIĆ
Reduced Fertility and Meiotic Abnormalities in the Late Generations of
Telomerase-Deficient *Arabidopsis thaliana* 7
- SEBASTIAN GRANICA, JAKUB P. PIWOWARSKI, AND ANNA K. KISS
Polyphenol Composition of Extract from Aerial Parts of *Circaea lutetiana* L. and Its
Antioxidant and Anti-inflammatory Activity In Vitro 16
- ILONA M. CZYCYŁO-MYSZA, IZABELA MARCIŃSKA, JOANNA JANKOWICZ-CIEŚLAK,
AND FRANCISZEK DUBERT
The Effect of Ionizing Radiation on Vernalization, Growth and Development of Winter Wheat 23
- IRMINA MACIEJEWSKA-RUTKOWSKA AND WOJCIECH ANTKOWIAK
Taxonomic Utility of Achene Morphology and Anatomy in *Anemone* L. (Ranunculaceae)
Species 29
- PIOTR ŻABICKI, ELŻBIETA KUTA, MONIKA TULEJA, KATARZYNA RATAJ, AND PRZEMYSŁAW MALEC
Arabidopsis Cyclin-Dependent Kinase Gene *CDKG;2* is Involved in Organogenic
Responses Induced In Vitro 37
- ALINA LIERSCH, JAN BOCIANOWSKI, MARCIN KOZAK, AND IWONA BARTKOWIAK-BRODA
Comparison of Isozyme, RAPD and AFLP Markers in Genetic Similarity Assessment
of CMS ogura F₁ Hybrids of Winter Oilseed Rape (*Brassica napus* L.) Parental Lines 49
- KLAUDIA BOROWIAK
Morphological Changes in Two Tobacco and Petunia Cultivars Under Exposure
to Tropospheric Ozone 58
- PAWEŁ JEDYNAK, BEATA MYŚLIWA-KURDZIEL, ELŻBIETA TUREK, AND PRZEMYSŁAW MALEC
Photoinduction of Seed Germination in *Arabidopsis thaliana* is Modulated by Phototropins 67
- ALINA TREJGELL, MYKHAYLO CHERNETSKYY, JOLANTA PODLASIAK, AND ANDRZEJ TRETYN
An Efficient System for Regenerating *Taraxacum pieninicum* Pawł. from Seedling Explants 73
- XICAN LI, YAOXIANG GAO, WEIJUAN HAN, JING LIN, QIUPING HU, AND DONGFENG CHEN
Antioxidant Activity and Mechanism in Flower of *Hylocereus undatus* (Haw.) Britt. et Rose 80
- JOLANTA DŁUŻEWSKA, IRENEUSZ ŚLESIAK, AND JERZY KRUK
Molecular Analysis of *Sorbus* sp. from the Pieniny Mts. and Its Relation to Other *Sorbus* species 86

KATARZYNA GOLAN, KATARZYNA RUBINOWSKA, AND EDYTA GÓRSKA-DRABIK Physiological and Biochemical Responses of Fern <i>Nephrolepis biserrata</i> (Sw.) Schott. to <i>Coccus hesperidum</i> L. Infestation	93
JOANNA ŚWIERCZYŃSKA, MAŁGORZATA KOZIERADZKA-KISZKURNO, AND JERZY BOHDANOWICZ Developmental and Cytochemical Studies of the Endosperm Chalazal Haustorium of <i>Rhinanthus serotinus</i> (Scrophulariaceae)	99
KRYSTYNA MUSIAŁ AND MARIA KOŚCIŃSKA-PAJĄK Egg Apparatus in Sexual and Apomictic Species of <i>Taraxacum</i> : Structural and Immunocytochemical Aspects of Synergid Cells	107
AGNIESZKA SUTKOWSKA, PIOTR BOROŃ, AND JÓZEF MITKA Natural Hybrid Zone of the <i>Aconitum</i> Species in the Western Carpathians: Linnaean Taxonomy and ISSR Fingerprinting	114

INSTRUCTIONS TO AUTHORS

ACTA BIOLOGICA CRACOVIENSIA Series Botanica is an English-language journal founded in 1958, devoted to plant anatomy and morphology, cytology, genetics, karyology, embryology, tissue culture, physiology, biosystematics, phytochemistry, secondary metabolism, pharmacology, bioactivity of plant natural products, biotechnology, molecular phylogenetics and phylogeography. It is published twice a year.

1. *ACTA BIOLOGICA CRACOVIENSIA Series Botanica* publishes **original papers** embodying the results of experimental or theoretical research, **invited reviews**, and **brief communications**. Manuscripts will be considered only on the understanding that they have not been published and are not being considered for publication elsewhere, that all authors agree on the content of the manuscript, and that laws on nature protection were not violated during the study. Authors should clearly describe the following in their cover letter: (1) the aims and hypothesis of the paper; (2) the novelty of the paper – new achievements or innovations contained in the paper; and (3) the general significance of their paper.

Articles should be written in English (American spelling). Authors whose native language is not English are strongly advised to have their manuscripts checked by a professional translator or a native speaker prior to submission. Manuscripts should be written concisely. Karyological notes on plants outside of Europe and papers on economic botany as well as manuscripts of restricted interest generally are not considered for publication. The journal has a strict editorial policy on the quality of data obtained by means of universal DNA genotyping markers (e.g., AFLP, ISSR, RAPD). Accordingly, papers reporting studies based on such markers should include an explicit assessment of genotyping error for any data set presented in Material and Methods and Results (for guidelines see, e.g., Bonin et al., 2004, *Molecular Ecology* 13: 3261-3273). Only manuscripts that follow this guideline will be considered for further peer review. A manuscript in the field of plant cell culture must contain new insights that lead to a better understanding of some aspect of fundamental plant biology. They should be of interest to a wide audience and the methods employed should contribute to the advancement of established techniques and approaches. Manuscripts which only describe protocols for plant regeneration without providing relevant biological information will not be considered for publication.

Authors are charged a fee for publication of their articles. The bill for publication will be sent with the galley proof. The fee, which is calculated after all articles are accepted, will be not more than 20 USD per printed page for foreign authors and 70 PLZ per printed page for Polish authors.

2. Manuscripts should be submitted via the editorial manager starting from September 1, 2013: www.editorialmanager.com/abcbot/

Before September 1, 2013, manuscripts including illustrations should be sent to the Editor:

Prof. dr. ELŻBIETA KUTA

Department of Plant Cytology and Embryology

The Jagiellonian University

Gronostajowa 9, 30-387 Cracow, Poland

e-mail: e.kuta@iphils.uj.edu.pl

Manuscripts will be examined by two anonymous and independent referees who have declared that they have no conflict of interest with the author(s). Invited referees evaluate the manuscript according to the following criteria: (1) formal aspects, (2) originality, (3) importance in its field, (4) theoretical background, (5) adequacy of methodology, (6) results and interpretation, and (7) overall quality.

3. Before September 1, 2013, manuscripts should be submitted via e-mail as an attached pdf file to the address of the Editor. To shorten the review process, authors are asked to indicate 3 or 4 names of specialists working in the same scientific discipline outside of their institution (including the name of their institution and e-mail addresses). Manuscripts should be double-spaced, with lines numbered. On all points of **style regarding text and tables**, follow a current copy of the journal. Words to be italicized (scientific names of genus and species only) should be typed in italics.
4. Original papers should not exceed 8 printed pages (approx. 24 manuscript pages including tables and figures).
5. Original papers should be headed by the title of the paper, author's name, institution, address (e-mail address if possible) and running title (no more than 50 characters), and should be preceded by 5–10 **Key words** and a short **Abstract**. Original research papers should be divided into the following sections: **Introduction**, **Materials and Methods**, **Results**, **Discussion**, **Acknowledgements** (if any) and **References**.

6. Invited reviews are mostly of limited scope on timely subjects written for a general, well-informed audience. Invited reviews are solicited by the Editor. Ideas for unsolicited reviews should be discussed with the Editor. They are subject to the usual review procedure.
7. Brief communications are short papers (1–3 printed pages) reporting new findings that do not need a standard full-length treatment with the usual main headings. Brief communications are subject to normal review.
8. **References** in the text should be cited in the following form: Newton (1990) or Newton and Berrie (1982) or (Ward, 1950; Hiroshi and Ohta, 1970). For three or more authors, use the form: Zinkowski et al. (1991).

Examples of style for references:

a) citations of journal papers:

PALMER TP. 1962. Population structure, breeding system, interspecific hybridization and allopolyploidy. *Heredity* 17: 278–283.

CHEN BY, HENEEN WK, and SIMONSEN V. 1989. Comparative and genetic studies of isozymes in resynthesized and cultivated *Brassica napus* L., *Brassica campestris* L., and *B. alboglabra* Baitey. *Theoretical and Applied Genetics* 77: 673–679.

b) citations of books, congress proceedings, theses:

BERGRREN DJ. 1981. *Atlas of Seeds*, part 3. Swedish Museum of Natural History, Stockholm.

BING D, DOWLEY RK, and RAKOW GFW. 1991. Potential of gene transfer among oilseed *Brassica* and their weedy relatives. *Proceedings of the GCTRC Eighth International Rapeseed Congress*, 9–11 July 1991, 1022–1027. Saskatoon, Saskatchewan.

ROMEO JT. 1973. A chemotaxonomic study of the genus *Erythrina* (Leguminosae). Ph.D. dissertation, University of Texas, Austin, TX.

c) citations of articles and chapters from books:

PHILLIPS RL. 1981. Pollen and pollen tubes. In: Clark G [ed.], *Staining Procedures*, 61–366. Williams and Wilkins, Baltimore, MD.

9. **Tables** must be numbered consecutively with arabic numerals and submitted separately from the text at the end of the paper. The title should be brief and written in the upper part of the table. Footnotes to tables should be indicated by lowercase letters.
10. **Illustrations** must be restricted to the minimum needed to clarify the text. Previously published illustrations are not accepted. All figures (photographs, graphs, diagrams) must be mentioned in the text. All figures are to be numbered consecutively throughout and submitted separately. Figure captions should be given on a separate page.
- 10.1. Photographs should be submitted the same size as they are to appear in the journal. If reduction is absolutely necessary, the scale desired should be indicated. The publisher reserves the right to reduce or enlarge illustrations. Photographs should match either the column width (83 mm) or the printing area (170 × 225 mm). Whenever possible, several photos should be grouped into a plate, and they should be sharp. For photographs without an integral scale the magnification of photographs must be stated in the legend. Color illustrations will be accepted; however, the author will be expected to contribute towards the extra costs. The charge will be not more than \$150.00 per printed page for foreign authors and 500 zł per printed page for Polish authors.
11. Manuscripts resubmitted after revision must be sent via e-mail as an attached file to the address of the Editor. Submit your text written in a standard program (Microsoft Word). Bitmap graphics files should be written in TIFF, PCX, EPS or BMP, and vector graphics in AI or CDR (curves). Submit the text, tables and each figure (plate) as separate files. Every paper will be checked for style and grammar. The Editor reserves the right to introduce corrections suggested by the journal's copy editor.
12. **Proof** will be sent directly to the author in electronic form as a pdf file. Authors' corrections have to be inserted in the print-out of the PDF proof. The corrected proofs must be returned to the Editor within two days by fax or by e-mail. Proofs not returned promptly by authors will be corrected by the Editor.
13. **Copyright**. Exclusive copyright in all papers accepted for publication must be assigned to the Polish Academy of Sciences and the Jagiellonian University, but the Academy and the University will not restrict the author's freedom to use material contained in the paper in other works by the author.
14. **Offprints**. Pdf of each paper are supplied to the author free of charge.
